Charity Quilts

Florida Cabin Fever Quilters Guild, Inc. is a proud sponsor of the UCP Center (United Cerebral Palsy) here in Orlando. UCP provides support, education, and therapy to children with and without disabilities in the Central Florida Area. Additionally, we have begun a sponsorship with the Women's Residential and Counseling Center (WRCC). The WRCC is a residential program for single women and women with children. It is under the umbrella of programs offered by the Central Florida Homeless Organization (Coalition for the Homeless). We provide quilts made and donated by our members and also other services and activities throughout the year for both groups.

Community Service

Revenue received from the Guild Donation Quilt is set aside for community service grants. Grants are given to guild members for quilt related community service projects which benefit women and children. Any member of the Guild may submit a request to the committee.

Registration Form
